Projects

Cryptocurrency stats website | *React.js, Chart.js, Material UI* | [Code](#) | [Link](#)

- Dynamic Cryptocurrency Dashboard: A React.js web platform that dynamically updates and showcases live data for over 200 cryptocurrencies through API integration.
- Chart.js Integration: Seamless integration with Chart.js, presenting detailed weekly, monthly, and yearly charts for individual currencies.
- Search Functionality: Users can search and view specific Coin details on a dedicated page.
- UI Carousel: Interactive UI Carousel for seamless navigation between Coins.
- Material UI Integration: Material UI is used to create an attractive and responsive CoinPage.

Admin Dashboard | *React.js, Material UI, Nivo Charts, Formik, Yup, FullCalendar and Data Grid* | [Code](#) | [Link](#)

- Created an Admin Dashboard using enterprise level industry standard packages.
- Application consists of Light and Dark Mode, 4 different Charts, 3 different Data Table Pages, FAQ Page, Form Page, and Calendar Integration.
- Uses Nivo Charts for charts, FullCalendar for the calendar app functionalities and Data Grid for the user data.

Portfolio Site | *React.js* | [Code](#) | [Link](#)

- Designed a personal portfolio website to effectively showcase my professional identity, skills, and educational history, providing a compact, user-friendly platform for self-presentation.
- Highlighted key skillsets with quantifiable metrics, offering a concrete representation of expertise and competencies for viewers to assess my capabilities.
- Presented academic credentials with measurable impact, using numbers and metrics to validate the significance of my educational background and qualifications.
